

The Teacher Advocate

A project dedicated to the advocacy of Ohio's teachers in the pursuit of a fair, valid, reliable, and reasoned accountability model

The Teacher Advocate is:

- Designed specifically to give voice to Ohio's teachers
- A project designed to help teachers to reclaim their profession and end the indefensible policies that demonize teachers through the misuse of standardized testing
- A project also designed to liberate Ohio's public school students from the reign of invalid testing and its arbitrary consequences.
- A one-stop site for information & critique on all of Ohio's school accountability elements such as OTES, Value Added, PARCC/Common Core, standardized testing, and more--*the research and scholarship that ODE doesn't want teachers to know.*
- Intended to help OEA and AFT to become more proactive in support of teachers by facing the reality of what has actually happened to teachers because of Ohio's so-called school reform legislation.
- Is nationally recognized and endorsed by public school & teacher advocates such as Diane Ravitch, Monty Neil, Jan Resseger, Susan Ohanian, and Bill Phillis.

It is time to return teaching to the teachers!
